

HDMI/DVI to DisplayPort Active Converter, HDMI to DisplayPort (F/F), 1920 x 1200 (1080p)

MODEL NUMBER: P130-000-DP

Description

The P130-000-DP HDMI/DVI to DisplayPort Active Converter connects an HDMI source, such as a computer or Blu-ray™ player, to a DisplayPort or Mini DisplayPort monitor. With a female HDMI input port and a female DisplayPort output port, this converter lets you use your existing DisplayPort display instead of buying a new HDMI monitor or television. It also connects DVI or mini-DVI sources to a DisplayPort monitor using adapter cables (sold separately), such as Tripp Lite's P566-Series DVI to HDMI cables.

Ideal for video graphics cards, video game consoles or home theater receivers, the P130-000-DP supports video resolutions up to 1920 x 1200, including 1080p. It also supports HDMI uncompressed two-channel audio, such as LPCM, and it's compliant with HDCP (High-Definition Content Protection). Stores EDID information to ensure top display compatibility. Plug and play with no software or drivers needed. Fits easily in a briefcase, backpack or laptop bag for connecting on the go. HDMI and DisplayPort cables sold separately.

Features

Sends HDMI Audio/Video Signals to a DisplayPort Monitor

- Ideal for video graphics cards, video game consoles or home theater receivers
- Connects HDMI source to DisplayPort display
